

Connecting People with Solutions

Breakthrough provides full service telecom solutions for clients who are looking to achieve greater cost efficiencies and improved performance for all of their telecommunications needs.

Breakthrough consultants will identify strategies to better leverage today's telecom technology and services for improved business productivity, control, and staff workload.

- **Performance Optimization** – get the most value from the services you use
- **Expense Management** - improve cost control and expense allocation
- **Network Integration** - to ensure efficient use of resources
- **New Technology Evaluation** - to plan for the future, before the day after it arrives
- **Project Management** - to supplement your resources on projects
- **Contract Negotiation** - leverage our collective experience
